

GO_Biological_Process_2021

synapse organization (GO:0050808)
axon guidance (GO:0007411)
glutamate receptor signaling pathway (GO:0007215)
negative regulation of CD4-positive, alpha-beta T cell differentiation (GO:0043371)
peptidyl-tyrosine dephosphorylation (GO:0035335)
cell-cell adhesion via plasma-membrane adhesion molecules (GO:0098742)
regulation of potassium ion transmembrane transport (GO:1901379)
positive regulation of cell projection organization (GO:0031346)
positive regulation of cation transmembrane transport (GO:1904064)
regulation of neuron differentiation (GO:0045664)
